NANNY SERVICES

Kids Services

Our nannies recognize the unique value of each child. We understand the concerns that parents may have when entrusting their little ones to the care of others, as we are parents ourselves. It is our responsibility to ease any anxieties that parents and children may have. Our caregivers go beyond meeting the basic needs of children, such as providing food (including catering to any allergies) and assisting with nap time. We also take the time to listen to their stories and engage in playful activities, creating a nurturing environment where every child feels comfortable and secure.

While holidays are a time for family fun, we understand that children may need extra time to adjust to new surroundings. We are mindful of their longing for the familiar comforts of home and their own cozy beds.

Please inform us of your specific needs, and we will strive to build a trusting relationship with your children, acting as their friends, siblings, and your reliable assistants all at once. Should you choose to leave your children in our care to enjoy some leisure time, rest assured that we will keep you informed about their well-being in a timely manner. Additionally, our nannies are available to accompany your little ones either within the villa premises or on outings, with the understanding that the cost of tickets will be covered by the guest.

At Villa Kauai, your children's safety and happiness are our top priorities.
